

Atmósferas explosivas. Parte 32-1: Peligros electrostáticos. Guía (Ratificada por la Asociación Española de Normalización en marzo de 2019.)

UNE-CLC/TR 60079-32-1:2018

Atmósferas explosivas. Parte 32-1: Peligros electrostáticos. Guía (Ratificada por la Asociación Española de Normalización en marzo de 2019.)

Explosive atmospheres - Part 32-1: Electrostatic hazards, guidance (Endorsed by Asociación Española de Normalización in March of 2019.)

Atmosphères explosives - Partie 32-1: Risques électrostatiques - Guide (Entérinée par l'Asociación Española de Normalización en mars 2019.)

En cumplimiento del punto 11.2.5.4 de las Reglas Internas de CEN/ CENELEC Parte 2, se ha otorgado el rango de documento normativo español UNE al documento normativo europeo CLC/ TR60079-32-1:2018 (Fecha de disponibilidad 2018-12-14)

Este documento está disponible en los idiomas oficiales de CEN/ CENELEC/ ETSI.

Este anuncio causará efecto a partir del primer día del mes siguiente al de su publicación en la revista UNE.

La correspondiente versión oficial de este documento se encuentra disponible en la Asociación Española de Normalización (Génova 6 28004 MADRID, www.une.org).

Las observaciones a este documento han de dirigirse a:

TECHNICAL REPORT

CLC/TR 60079-32-1

RAPPORT TECHNIQUE

TECHNISCHER BERICHT

December 2018

ICS 29.260.20

Supersedes CLC/TR 60079-32-1:2015

English Version

Explosive atmospheres - Part 32-1: Electrostatic hazards,
guidance
(IEC/TS 60079-32-1:2013, IEC/TS 60079-32-1:2013/A1:2017)

Atmosphères explosives - Partie 32-1: Risques
électrostatiques - Guide
(IEC/TS 60079-32-1:2013, IEC/TS 60079-32-
1:2013/A1:2017)

Explosionsgefährdete Bereiche - Teil 32-1: Elektrostatische
Gefährdungen, Leitfaden
(IEC/TS 60079-32-1:2013, IEC/TS 60079-32-
1:2013/A1:2017)

This Technical Report was approved by CENELEC on 2018-10-22.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

CEN-CENELEC Management Centre: Rue de la Science 23, B-1040 Brussels

European foreword

This document (CLC/TR 60079-32-1:2018) consists of the text of IEC/TS 60079-32-1:2013 and IEC/TS 60079-32-1:2013/A1:2017 prepared by IEC/TC 31 "Equipment for explosive atmospheres".

This document supersedes CLC/TR 60079-32-1:2015.

The technical specification IEC/TS 60079-32-1 is written as a general guidance document for products in general and process properties necessary to avoid ignition hazards arising from static electricity in a hazardous area.

The IEC standard IEC 60079-0 specifies the general requirements, including the requirements to avoid electrostatic charging, for construction, testing and marking of Ex equipment and Ex Components intended for use in explosive atmospheres.

In some cases, the requirements given in IEC 60079-0 are different from the information given in IEC/TS 60079-32-1.

It was decided to have all information also given complete in the guidance document and therefore the new Clause 14 was added to the IEC/TS 60079-32-1 summarizing the requirements given in IEC 60079-0 for Ex equipment and Ex-Components as additional information.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

Endorsement notice

The texts of the International Technical Specifications IEC/TS 60079-32-1:2013 and IEC/TS 60079-32-1:2013/A1:2017 were approved by CENELEC as a Technical Report without any modification.

In the official version, for Bibliography, the following notes have to be added for the standards indicated:

| | |
|---------------|----------------------------------|
| IEC 60243-1 | NOTE Harmonized as EN 60243-1. |
| IEC 60243-2 | NOTE Harmonized as EN 60243-2. |
| IEC 60247 | NOTE Harmonized as EN 60247. |
| IEC 61340-2-1 | NOTE Harmonized as EN 61340-2-1. |
| IEC 61340-4-5 | NOTE Harmonized as EN 61340-4-5. |
| IEC 61340-4-7 | NOTE Harmonized as EN 61340-4-7. |
| ISO 8028 | NOTE Harmonized as EN ISO 8028. |
| ISO 8330 | NOTE Harmonized as EN ISO 8330. |
| ISO 13688 | NOTE Harmonized as EN ISO 13688. |
| ISO 20344 | NOTE Harmonized as EN ISO 20344. |
| ISO 20345 | NOTE Harmonized as EN ISO 20345. |

Annex ZA
(normative)

**Normative references to international publications
with their corresponding European publications**

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

NOTE When an international publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.

Edition 1.0 2013-08

TECHNICAL SPECIFICATION

**Explosive atmospheres –
Part 32-1: Electrostatic hazards, guidance**

An abstract background graphic featuring a complex network of thin, light gray lines that form a grid-like pattern. The lines are curved and intersect to create a series of overlapping, rounded rectangular shapes, giving the impression of a technical drawing or a stylized architectural structure. The overall tone is light gray and white.

About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

Useful links:

IEC publications search - www.iec.ch/searchpub

The advanced search enables you to find IEC publications by a variety of criteria (reference number, text, technical committee,...).

It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available on-line and also once a month by email.

Electropedia - www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 30 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary (IEV) on-line.
