Acceptance Notice

The following Industry Standardization Document was adopted on 31 October 1975 for mandatory use by the DoD. The indicated industry groups have furnished the clearances required by existing regulations. Copies of the documents are stocked by DoD Single Stock Point, Naval Publications and Forms Center, Philadelphia, PA, 19120, for issue to military activities only.

Title of Document: **Reference Designations for Electrical and Electronics Parts and Equipments**

Document No. (a) IEEE Std 200-1975
(b) ANSI Y32.16-1975

Date of Specific Issue Adopted: (a) 4 September, 1975
(b) 31 October, 1975

Releasing Industry Group: (a) The Institute of Electrical and Electronics Engineers, Inc.
(b) American National Standards Institute, Inc.

Supersedes: ANSI Y32.16-1968 and ANSI Y32.16a-1970

SPECIAL NOTICE: For DoD Activities

- (a) Unless otherwise specified by contract or order, the assignment of reference designations shall be made using the "Unit Numbering Method" (Section 4).
- (b) Unless specified by contract or order the "Designation of Deposited Components of Hybrid Printed Circuits" (Section 7) is not required.

Custodians:
Army - EL
Navy - SH
Air Force - 16

Military Coordinating Activity:
Army - EL

Review Activities:
Army - AV, MI, MU
Navy AS, OS, SH, YD

User Activities:
Army - ME
Navy - EC, MC

Project Number: DRPR-0168

Certain provisions of this standard are subject of International Standardization Agreement, ABC NAVY STD-28A, Symbols and Abbreviations for Electrical and Electronics Drawings, to which the U.S. Army also subscribes. When reaffirmation, amendment, revision, or cancellation of this standard is proposed which will affect or violate the international agreement concerned, the Military Coordinating Activity will take appropriate reconciliation action through military international standardization channels including departmental standardization offices, if required.

NOTICE: When reaffirmation, amendment, revision, or cancellation of this standard is initially proposed, the cognizant secretariat of the industry standard shall inform the Military Coordinating Activity of the proposed change and request their participation.

ANSI IEEE
Y32.16-1975 Std 200-1975
(Revision of
ANSI Y32.16-1968 and
Y32.16A-1970)

Approved September 4, 1975
Institute of Electrical and Electronics Engineers

Adopted for Mandatory Use October 31, 1975
Department of Defense, United States of America

American National Standard

An American National Standard implies a consensus of those substantially concerned with its scope and provisions. An American National Standard is intended as a guide to aid the manufacturer, the consumer, and the general public. The existence of an American National Standard does not in any respect preclude anyone, whether he has approved the standard or not, from manufacturing, marketing, purchasing, or using products, processes, or procedures not conforming to the standard. American National Standards are subject to periodic review and users are cautioned to obtain the latest editions.

CAUTION NOTICE: This American National Standard may be revised or withdrawn at any time. The procedures of the American National Standards Institute require that action be taken to reaffirm, revise, or withdraw this standard no later than five years from the date of publication. Purchasers of American National Standards may receive current information on all standards by calling or writing the American National Standards Institute.
