

UL 347A

STANDARD FOR SAFETY

Medium Voltage Power Conversion Equipment

UL Standard for Safety for Medium Voltage Power Conversion Equipment, UL 347A

Second Edition, Dated January 5, 2021

Summary of Topics

This revision of ANSI/UL 347A dated March 1, 2021 includes correcting a typographical error in [Table 21.6](#). The incorrect value of 1400 under Column 4, Pollution Degree 3, Insulating Material Group II, has been amended to reflect the correct value of 140.

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The correction is in accordance with the Proposal dated June 5, 2020.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

UL 347A

Standard for Medium Voltage Power Conversion Equipment

First Edition – September, 2015

Second Edition

January 5, 2021

This ANSI/UL Standard for Safety consists of the Second Edition including revisions through March 1, 2021.

The most recent designation of ANSI/UL 347A as an American National Standard (ANSI) occurred on November 11, 2020. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, and Title Page.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

	32.2 Test conditions	38
33	Dielectric Voltage-Withstand Test	42
	33.1 General.....	42
	33.2 Meters	43
	33.3 Test procedure	43
34	Switching Capability Test – Isolating Means.....	44
35	Short Circuit Interruption Test	44
	35.1 General requirements	44
	35.2 Interruption ratings.....	45
	35.3 Branch circuit short circuit protection requirements	47
36	Impulse Withstand Test.....	49
	36.1 General.....	49
	36.2 Impulse voltage withstand test methods	50
	36.3 Evaluation	50
37	Calibration Tests – Overload	51
38	Solid State Motor Protection Tests	51
	38.1 Solid state motor overload protection test	51
	38.2 Thermal memory retention test (shutdown)	51
	38.3 Thermal memory retention test (loss of power).....	52
	38.4 Speed sensitivity test	52
39	Operation Tests.....	52
	39.1 General.....	52
	39.2 Single phasing.....	53
	39.3 Inoperative blower motor	54
	39.4 Clogged filter	54
	39.5 Current limiting control	54
	39.6 Loss of cooling medium circulation test.....	54
	39.7 Input phase reversal	55
	39.8 Acceptance criteria	55
40	Hydrostatic Pressure Test	55
41	Breakdown of Components Test	56
42	Capacitor Discharge Test.....	58
43	Mechanical Operation and Interlock Integrity Test	58
44	Rod Entry Test	58
45	Mechanical Tests of Viewing Panes	59
46	Accessory Installation Test.....	59

MARKINGS

47	General	59
