

# UL 60947-7-3

## **STANDARD FOR SAFETY**

Low-Voltage Switchgear and Controlgear – Part 7-3: Ancillary Equipment – Safety Requirements for Fuse Terminal Blocks

UL Standard for Safety for Low-Voltage Switchgear and Controlgear – Part 7-3: Ancillary Equipment – Safety Requirements for Fuse Terminal Blocks UL 60947-7-3

Third Edition, Dated January 27, 2017

#### Summary of Topics

This revision of ANSI/UL 60947-7-3 dated April 21, 2021 is being issued to update the title page to reflect the most recent designation as a Reaffirmed American National Standard (ANS). No technical changes have been made.

As noted in the Commitment for Amendments statement located on the back side of the title page, CSA Group, ANCE and UL are committed to updating this harmonized standard jointly. However, the revision pages dated April 21, 2021 will not be jointly issued by UL, CSA, and ANCE as these revision pages only address UL ANSI approval dates.

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The requirements are substantially in accordance with Proposal (s) on this subject dated February 12, 2021.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

### Low-Voltage Switchgear and Controlgear – Part 7-3: Ancillary Equipment – Safety Requirements for Fuse Terminal Blocks

January 27, 2017

(Title Page Reprinted: April 21, 2021)

This national standard is based on publication IEC 60947-7-3, first edition (2002) including Corrigendum 1 (2003).

I

#### **Commitment for Amendments**

This standard is issued jointly by the Association of Standardization and Certification (ANCE), the Canadian Standards Association (operating as "CSA Group"), and Underwriters Laboratories Inc. (UL). Comments or proposals for revisions on any part of the standard may be submitted to ANCE, CSA Group, or UL at anytime. Revisions to this standard will be made only after processing according to the standards development procedures of ANCE, CSA Group, and UL. CSA Group and UL will issue revisions to this standard by means of a new edition or revised or additional pages bearing their date of issue. ANCE will incorporate the same revisions into a new edition of the standard bearing the same date of issue as the CSA Group and UL pages.

All rights reserved. No part of this publication may be reproduced in any form whatsoever without the prior permission of the publisher.

This Standard is subject to review within five years from the date of publication, and suggestions for its improvement will be referred to the appropriate committee. The technical content of the IEC and ISO publications is kept under constant review by IEC and ISO. To submit a proposal for change, please send the following information to inquiries@csagroup.org and include "Proposal for change" in the subject line: Standard designation (number); relevant clause, table, and/or figure number; wording of the proposed change; and rationale for the change.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

This ANSI/UL Standard for Safety consists of the Third edition including revisions through April 21, 2021. The most recent designation of ANSI/UL 60947-7-3 as a Reaffirmed American National Standard (ANS) occurred on March 31, 2021. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page (front and back), or the Preface. The National Difference Page and IEC Foreword are also excluded from the ANSI approval of IEC-based standards.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at https://csds.ul.com.

#### CONTENTS

Preface		
13		
1	General	15
•	1.1 Scope	
	1.1DV Modification by adding the following:	
	1.2 Normative references.	
	1.2DV Modification by adding the following:	
2 3	Definitions	
	2.1DV Modification by replacing 2.1 with the following:	
	Classification	
	3DV.1 Modification by adding the following item:	
	3DV.2 Modification by adding the following:	
	3DV.3 Modification by adding the following:	
4	Characteristics	
	4.1 Fuse-links	
	4.1DV Addition:	
	4.2 Rated power dissipation value	
	4.2DV Modification by adding the following:	
	4.3 Rated and limiting values	
5	Product information	
	5.1 Marking	
	5.2 Additional information	
	5.2DV.1 Modification by replacing item a) with the following:	
	5.2DV.2 Deletion of items g) and h):	
	5.2DV.3 Modification by adding the following:	
	5.3 Marking on the packing unit	
	5.3DV Deletion:	
6	Normal service, mounting and transport conditions	
	6.1.1 Ambient temperature	
7	Constructional and performance requirements	
	7.1 Constructional requirements	
	7.1DV Modification by adding the following:	21
	7.1.9DV Addition:	
	7.2 Performance requirements	
	7.3 Electromagnetic compatibility (EMC)	
8	Tests	
	8.1 Kinds of test	
	8.2 General	
	8.3 Verification of mechanical characteristics	
	8.4 Verification of electrical characteristics	
	8.5 Verification of thermal characteristics	
	8.6 Verification of EMC characteristics	43

### Annex A (normative) Gauges
